

**Packaging:**  
In 25KG/Bag,  
500KG/Bag.  
store in a cool and  
dry place.

**Product  
Registration  
Status:**  
Reach: Yes  
(China / India)

**Origin:**  
China / India

**Shelf Life:**  
3 years

**HS-No.:**  
29182110

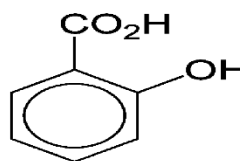

**Availability:**

## Salicylic Acid

**Chemical Name:** Salicylic Acid

**CAS No.:** 69-72-7

**Molecular Formula.:** C<sub>7</sub>H<sub>6</sub>O<sub>3</sub>

### Characteristics:

Salicylic acid is a fat-soluble organic acid, a white crystal powder. It is can be used for the preparation of aspirin and other drugs.

### Applications

- In the rubber industry, it's used as an anti-scorching agent and produces ultraviolet absorbers and foaming agents.
- It's used as a complexing agent for electroplating or electroless plating.
- It's used in cosmetic preservatives.
- It's used as a raw material in the pharmaceutical industry for the preparation of aspirin, sodium salicylate and other drugs.
- It's used as a raw material in the pharmaceutical industry for the preparation of aspirin, sodium salicylate and other drugs.
- It's used as an accelerator for curing epoxy resin and as a preservative. It can be used to prepare synthetic fragrances such as methylsalicylate and ethyl salicylate.

### SALES SPECIFICATION

Item	Specification
<b>Appearance</b>	White Crystal or Crystal Powders
<b>Assay</b>	≥99.0%
<b>Initial Melting Point</b>	≥156°C
<b>Phenol</b>	≤0.20%
<b>Ash</b>	≤0.30%
