

Filter Module

The “Filter Results” in the members module allows user to narrow down the list of members based on company name and/or country. By applying, users can find and connect with members based on certain criteria, making networking more efficient.

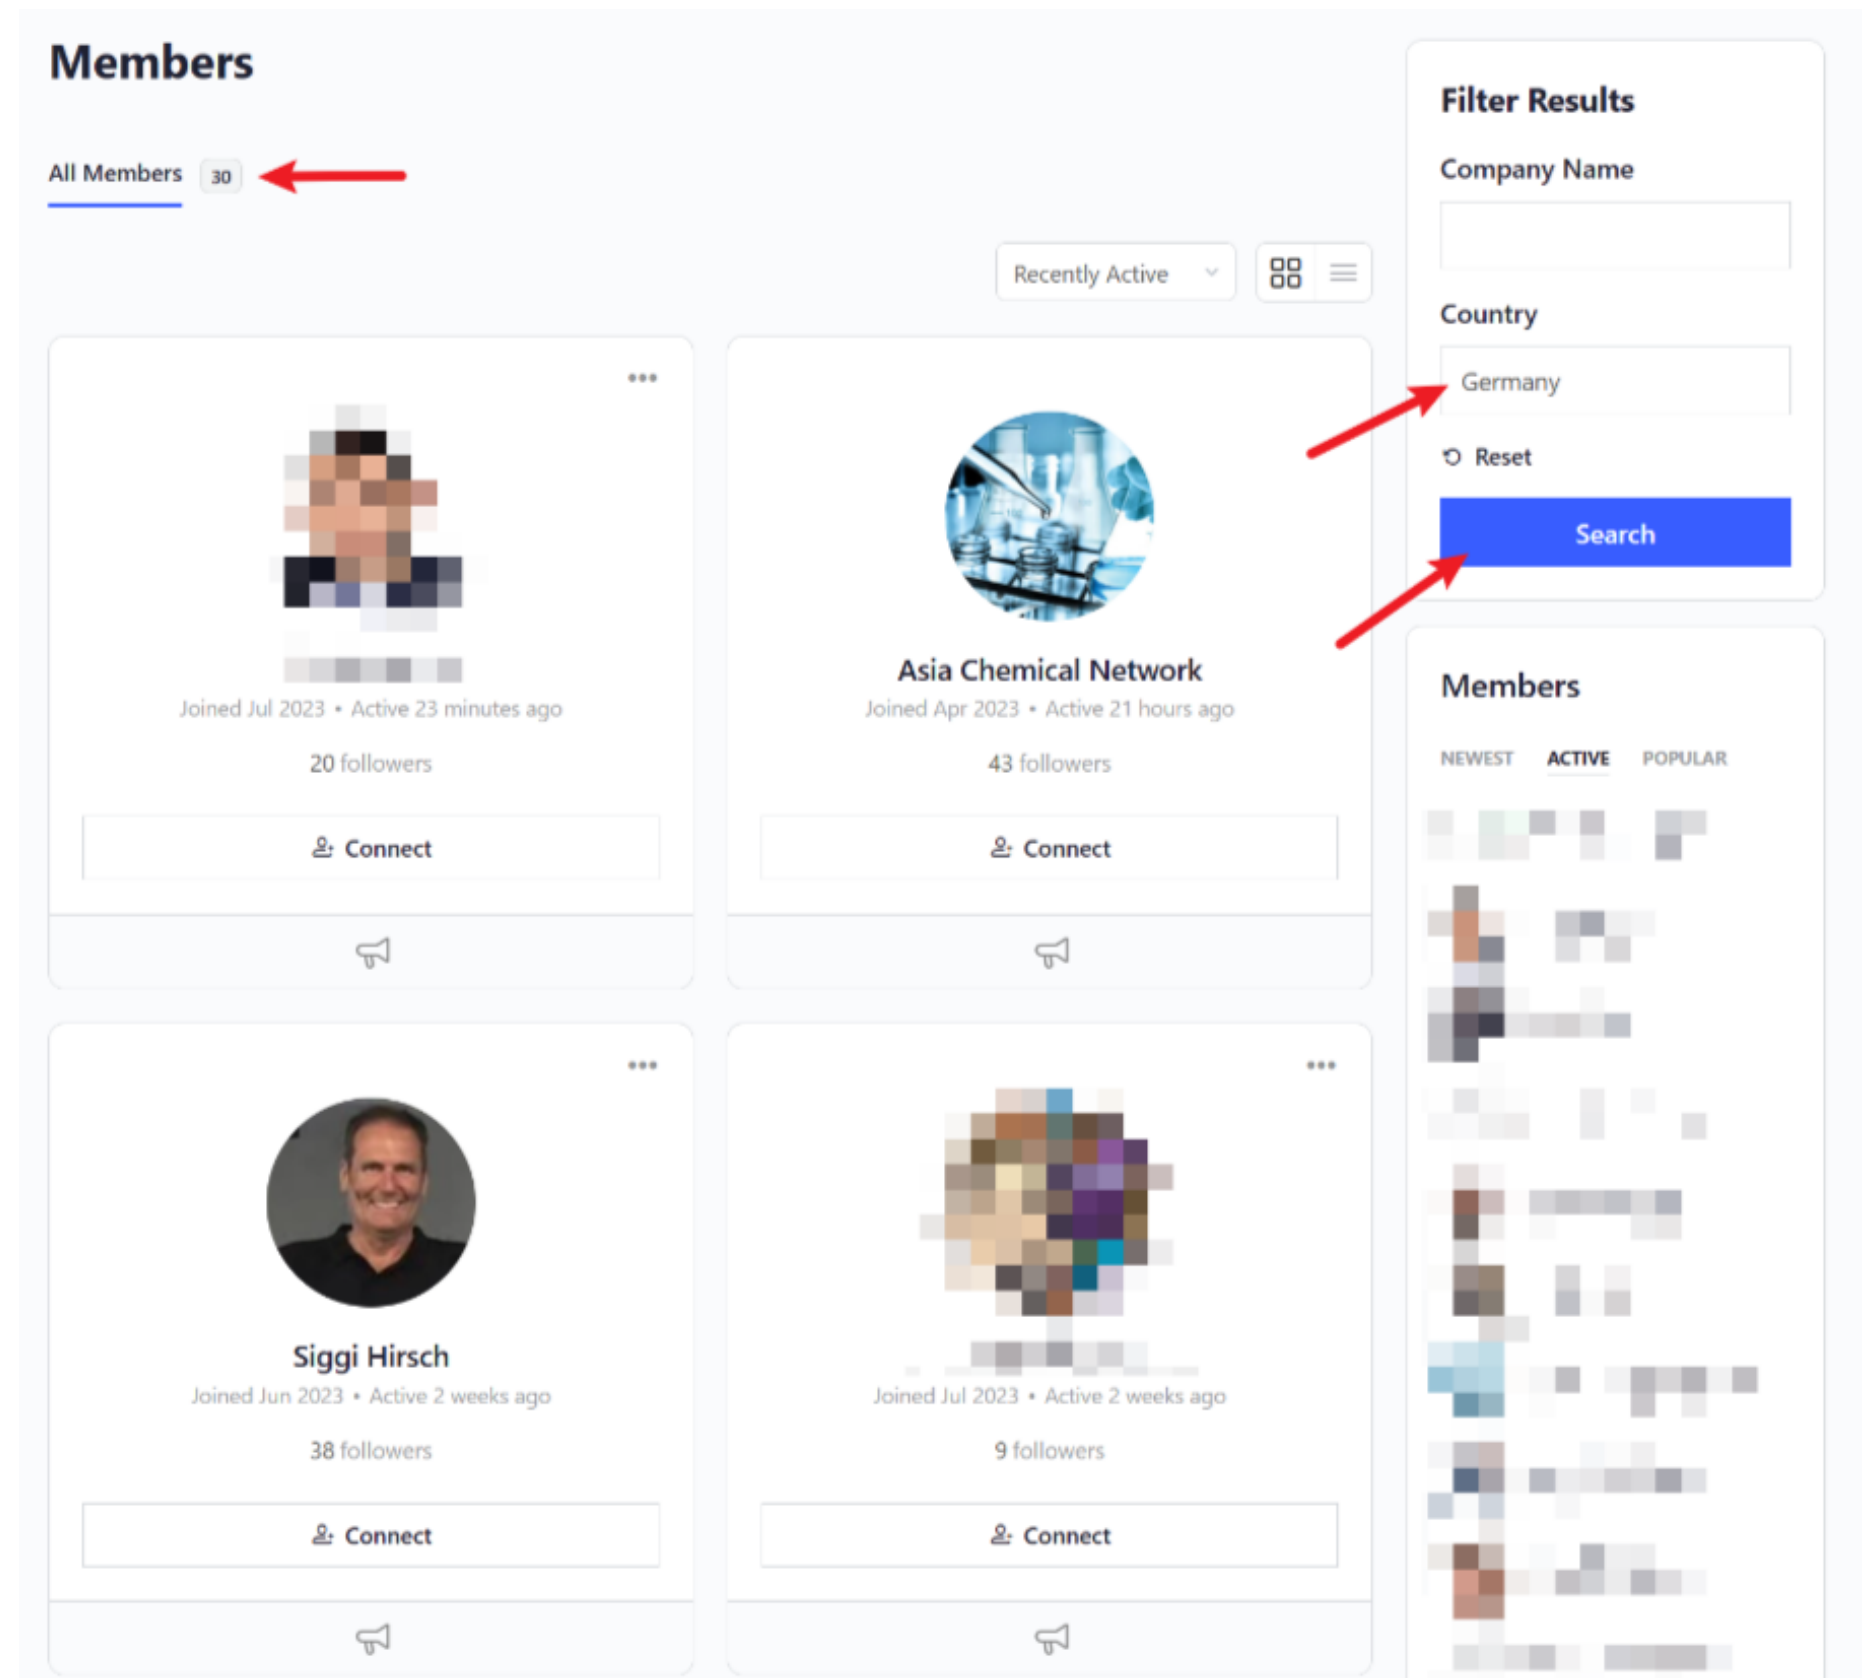

Find members by their company.

1. Navigate to the Members page.
2. Type in the company name and click on the "Search" button.
3. The following picture shows the result of searching "Asia Chemical Network:."

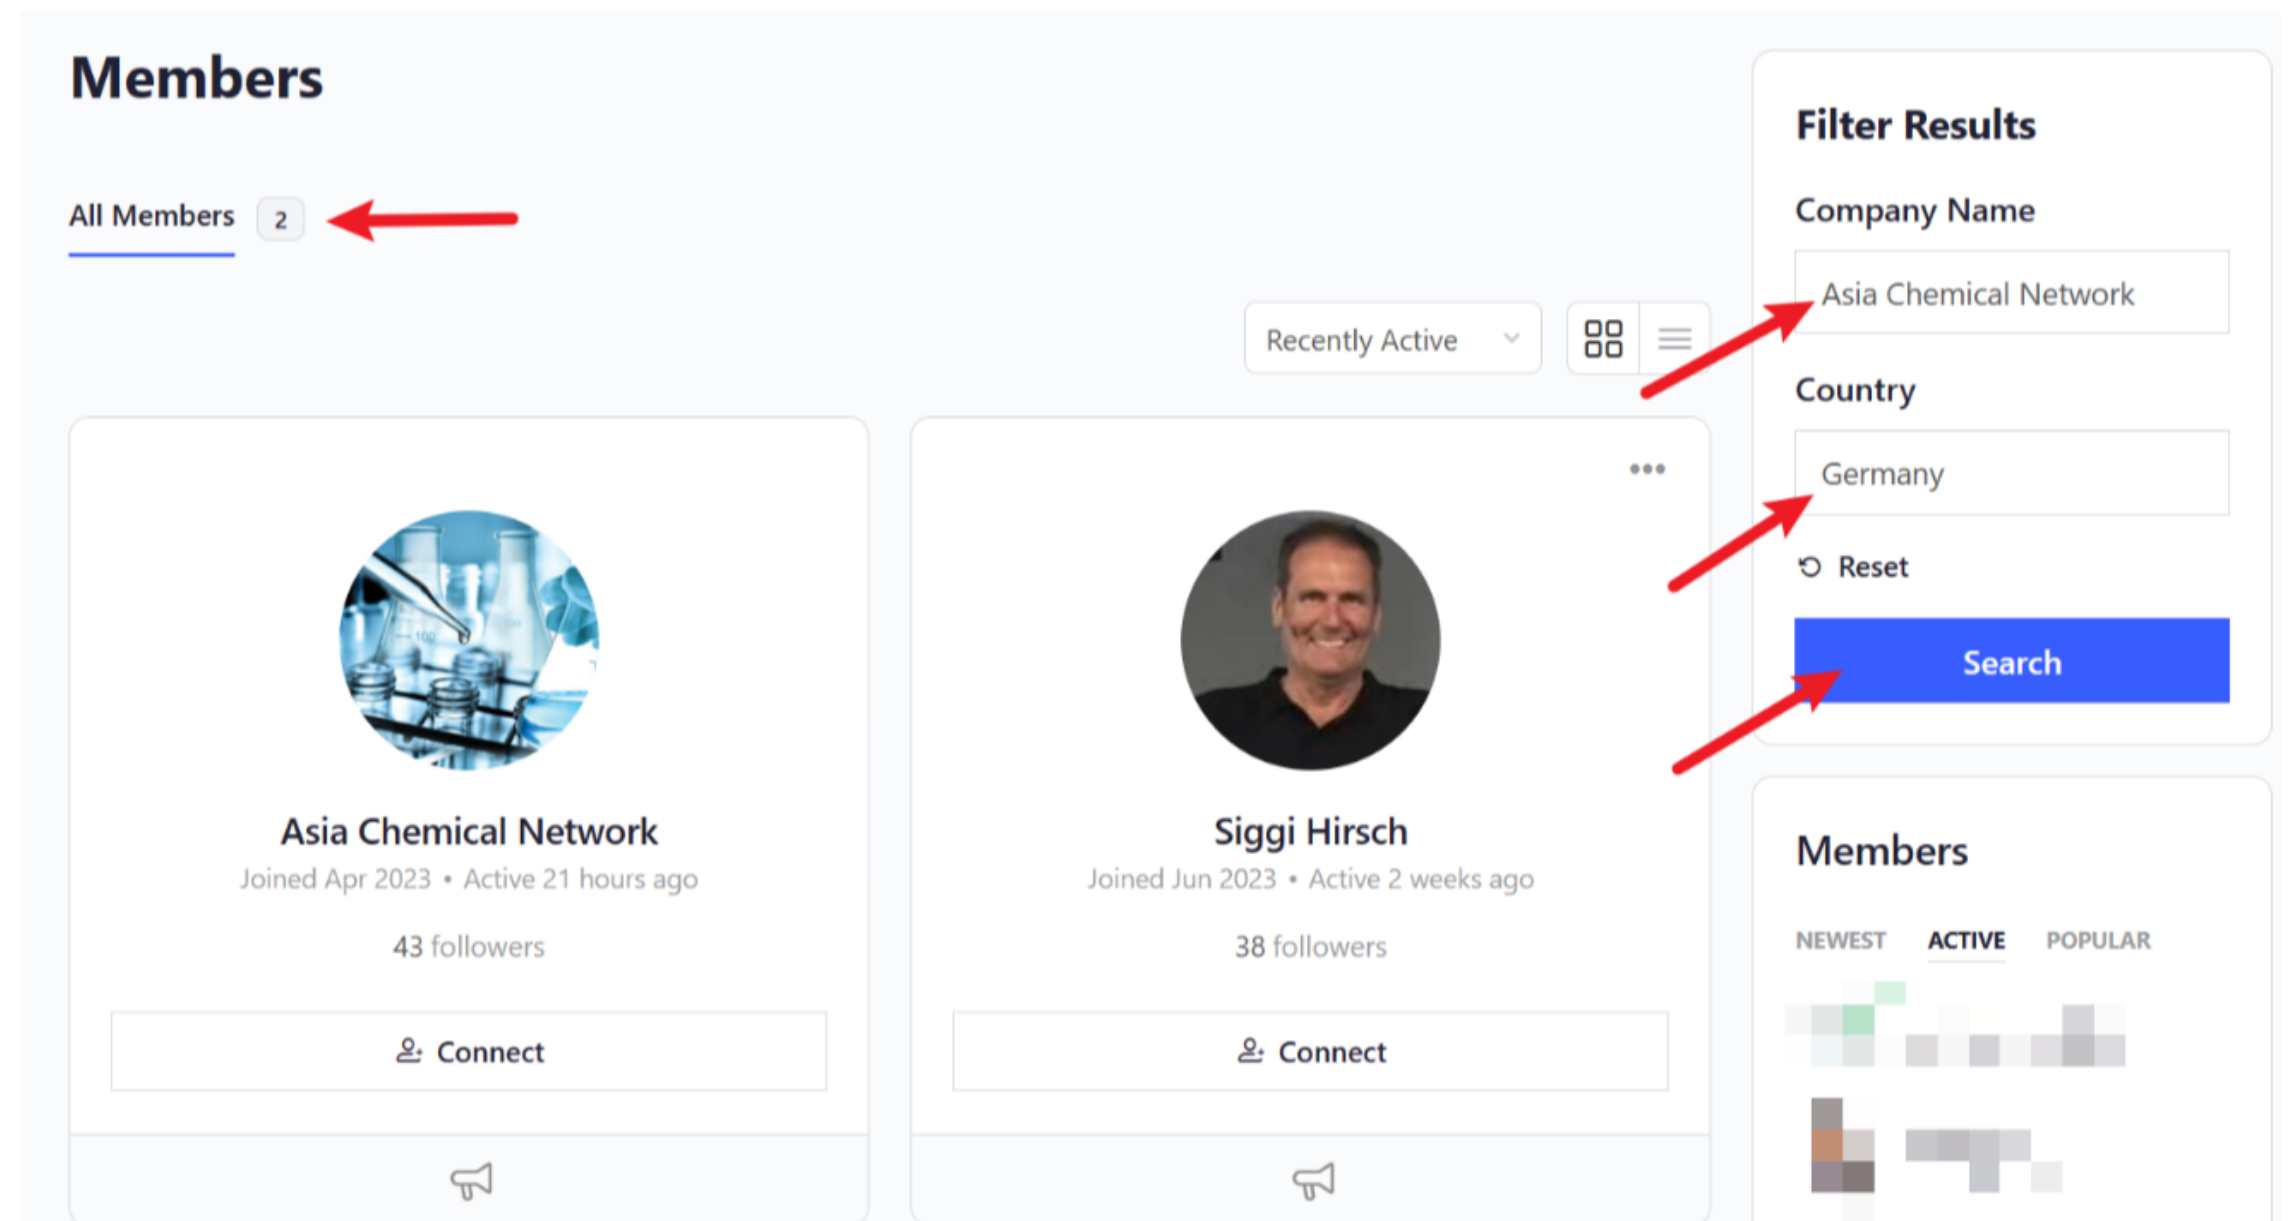

Find members by their country

1. Navigate to the members page.
2. Type in the country name and click on the "Search" button,
3. The following picture shows the result of searching "Germany".

Find members by their company and country

1. Navigate to the members page.
2. Type in the company and country name and click on the "Search" button.
3. The following picture shows the result of searching "Asia Chemical Network" and "Germany".

Clear Filter

To remove the filter, click "Reset".
This will return to the default state
with no filters.

The screenshot shows a LinkedIn 'Members' page for the 'Asia Chemical Network' group. The page title is 'Members' and it shows 'All Members' with a count of 2. A dropdown menu is set to 'Recently Active'. Two member cards are visible: 'Asia Chemical Network' (43 followers) and 'Siggi Hirsch' (38 followers). On the right, a 'Filter Results' sidebar is active, showing filters for 'Company Name' (Asia Chemical Network) and 'Country' (Germany). A red arrow points to the 'Reset' button in the filter sidebar. Below the filter sidebar is a 'Members' section with tabs for 'NEWEST', 'ACTIVE', and 'POPULAR', and a grid of member profile pictures. At the bottom left, it says 'Viewing 1 - 2 of 2 members'.
