

Groups Module

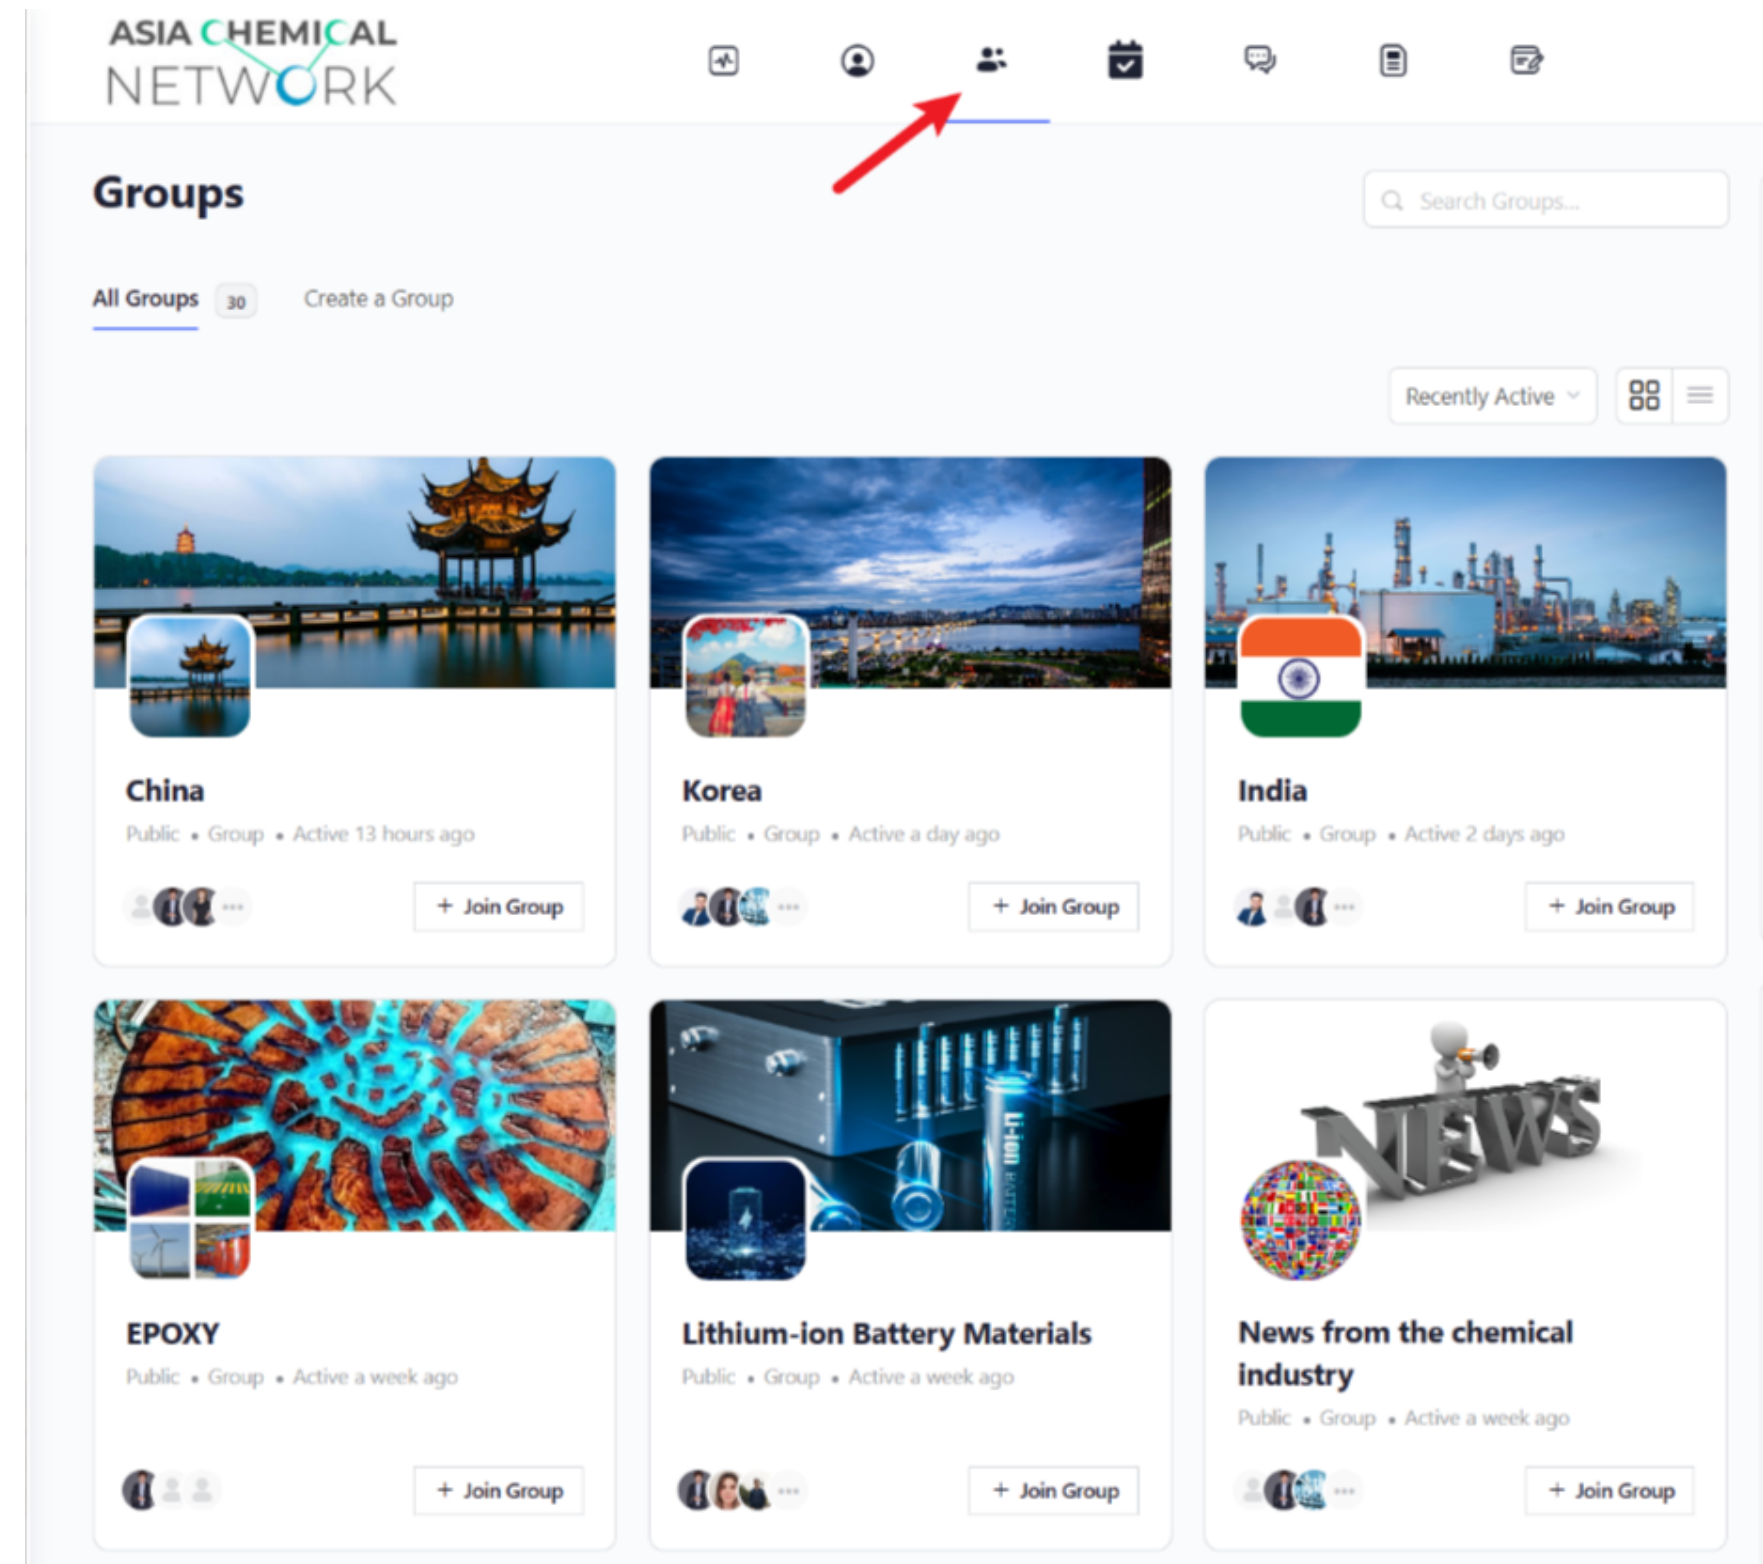

- Facilitates community building by allowing users to create or join specific interest groups.
- Groups can be based on different chemical sectors, regions, or other criteria.
- Provides a space for focused discussions, knowledge sharing, and networking within a specific niche.

How To Make A Post In A Specified Group

Follow these steps to make a post in a group -

Step 1. Navigate to the Groups section on the platform.

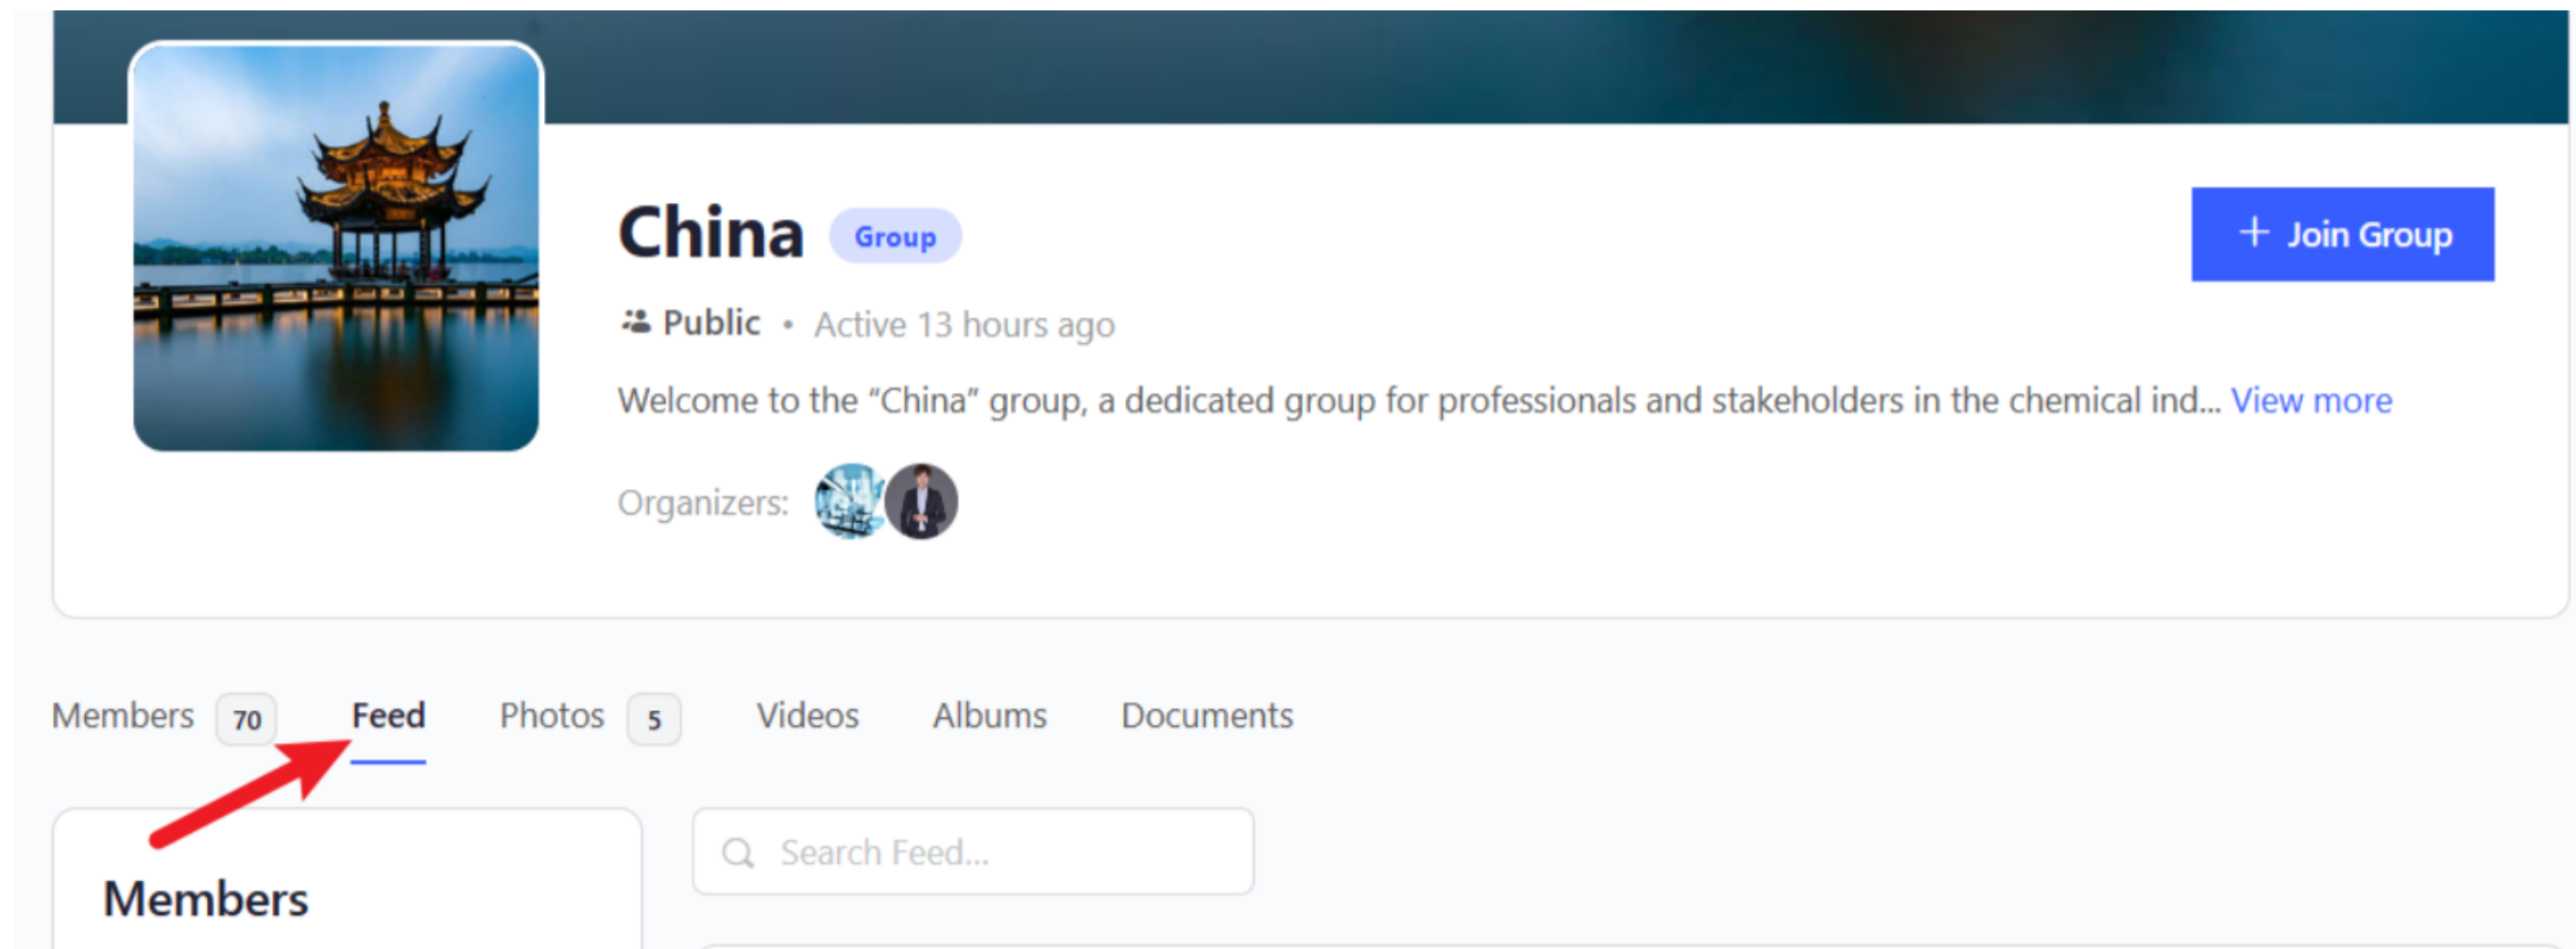

02

Follow these steps to make a post in a group -

Step 3. To make a post in a group, you need to join the group first by clicking on the “Join Group” button.

How To Make A Post In A Specified Group

Follow these steps to make a post in a group -

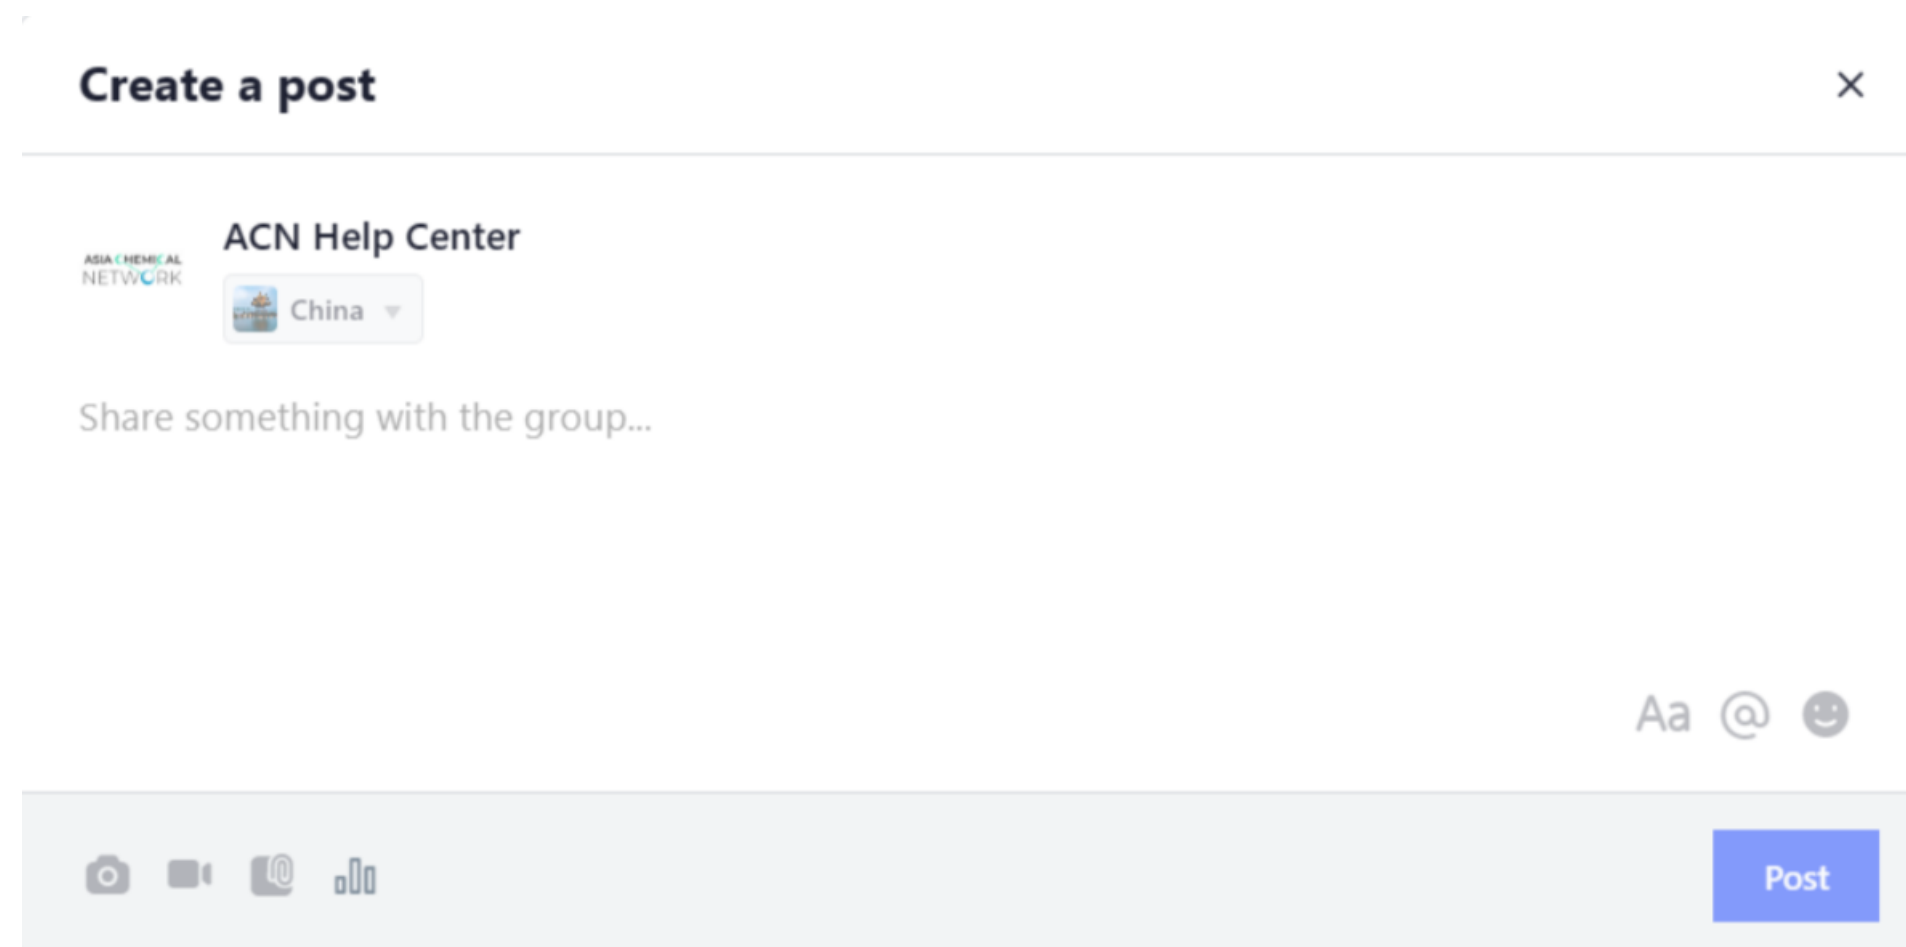

Step 4. Click the dialog box.

The screenshot shows the Facebook interface for a group named "China". The group is public and has 71 members. The "Feed" tab is selected, showing a post creation area with the text "Share something with the group...". A red arrow points to this text box. Below the text box are icons for adding photos, videos, links, and documents. A search bar for the feed is also visible.

How To Make A Post In A Specified Group

Follow these steps to make a post in a group -

Step 5. Type your post content in the provided text area. You can also add attachments, images, videos, polls and links as needed.

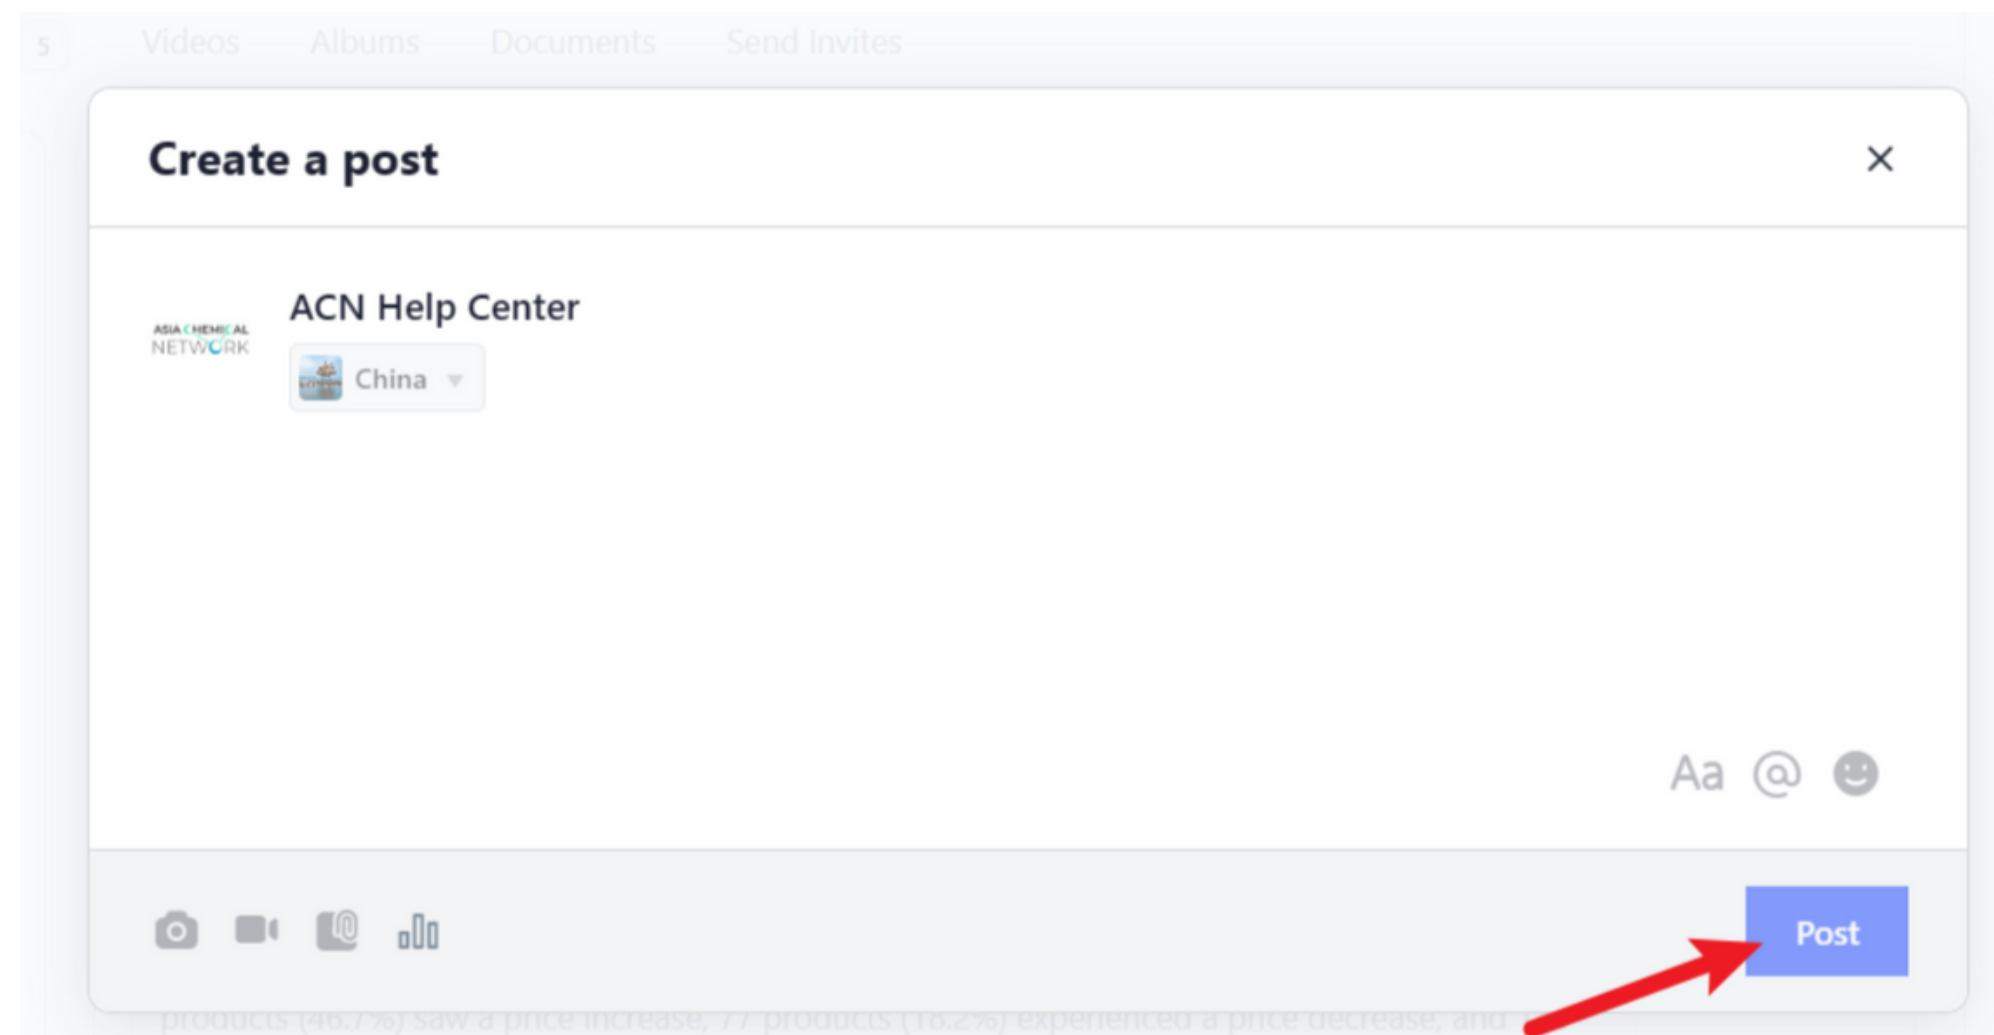

The screenshot shows a 'Create a post' dialog box for the 'ACN Help Center' group. The group name and logo are at the top left. Below it, there is a location selector showing 'China' with a dropdown arrow. A large text input area contains the placeholder text 'Share something with the group...'. At the bottom right of the text area are icons for text formatting ('Aa'), tagging ('@'), and emojis. At the very bottom of the dialog, there are icons for adding attachments: a camera, a video camera, a tag, and a poll icon. A blue 'Post' button is located at the bottom right of the dialog.
