

# Search Function

The search function on Asia Chemical Network is located at the top of the homepage. Users can type keywords or phrases into this field to search across various sections of the platform including Activity, Members, Groups, Events, Products and Business.

ASIA CHEMICAL NETWORK

Connect & Work without borders

Asia Chemical Network serves as a premier chemical portal, facilitating seamless connections between producers and consumers within the chemical industry.

29+ Community Groups

30+ Upcoming Events

258+ Registered Members

### Asia Chemical Network

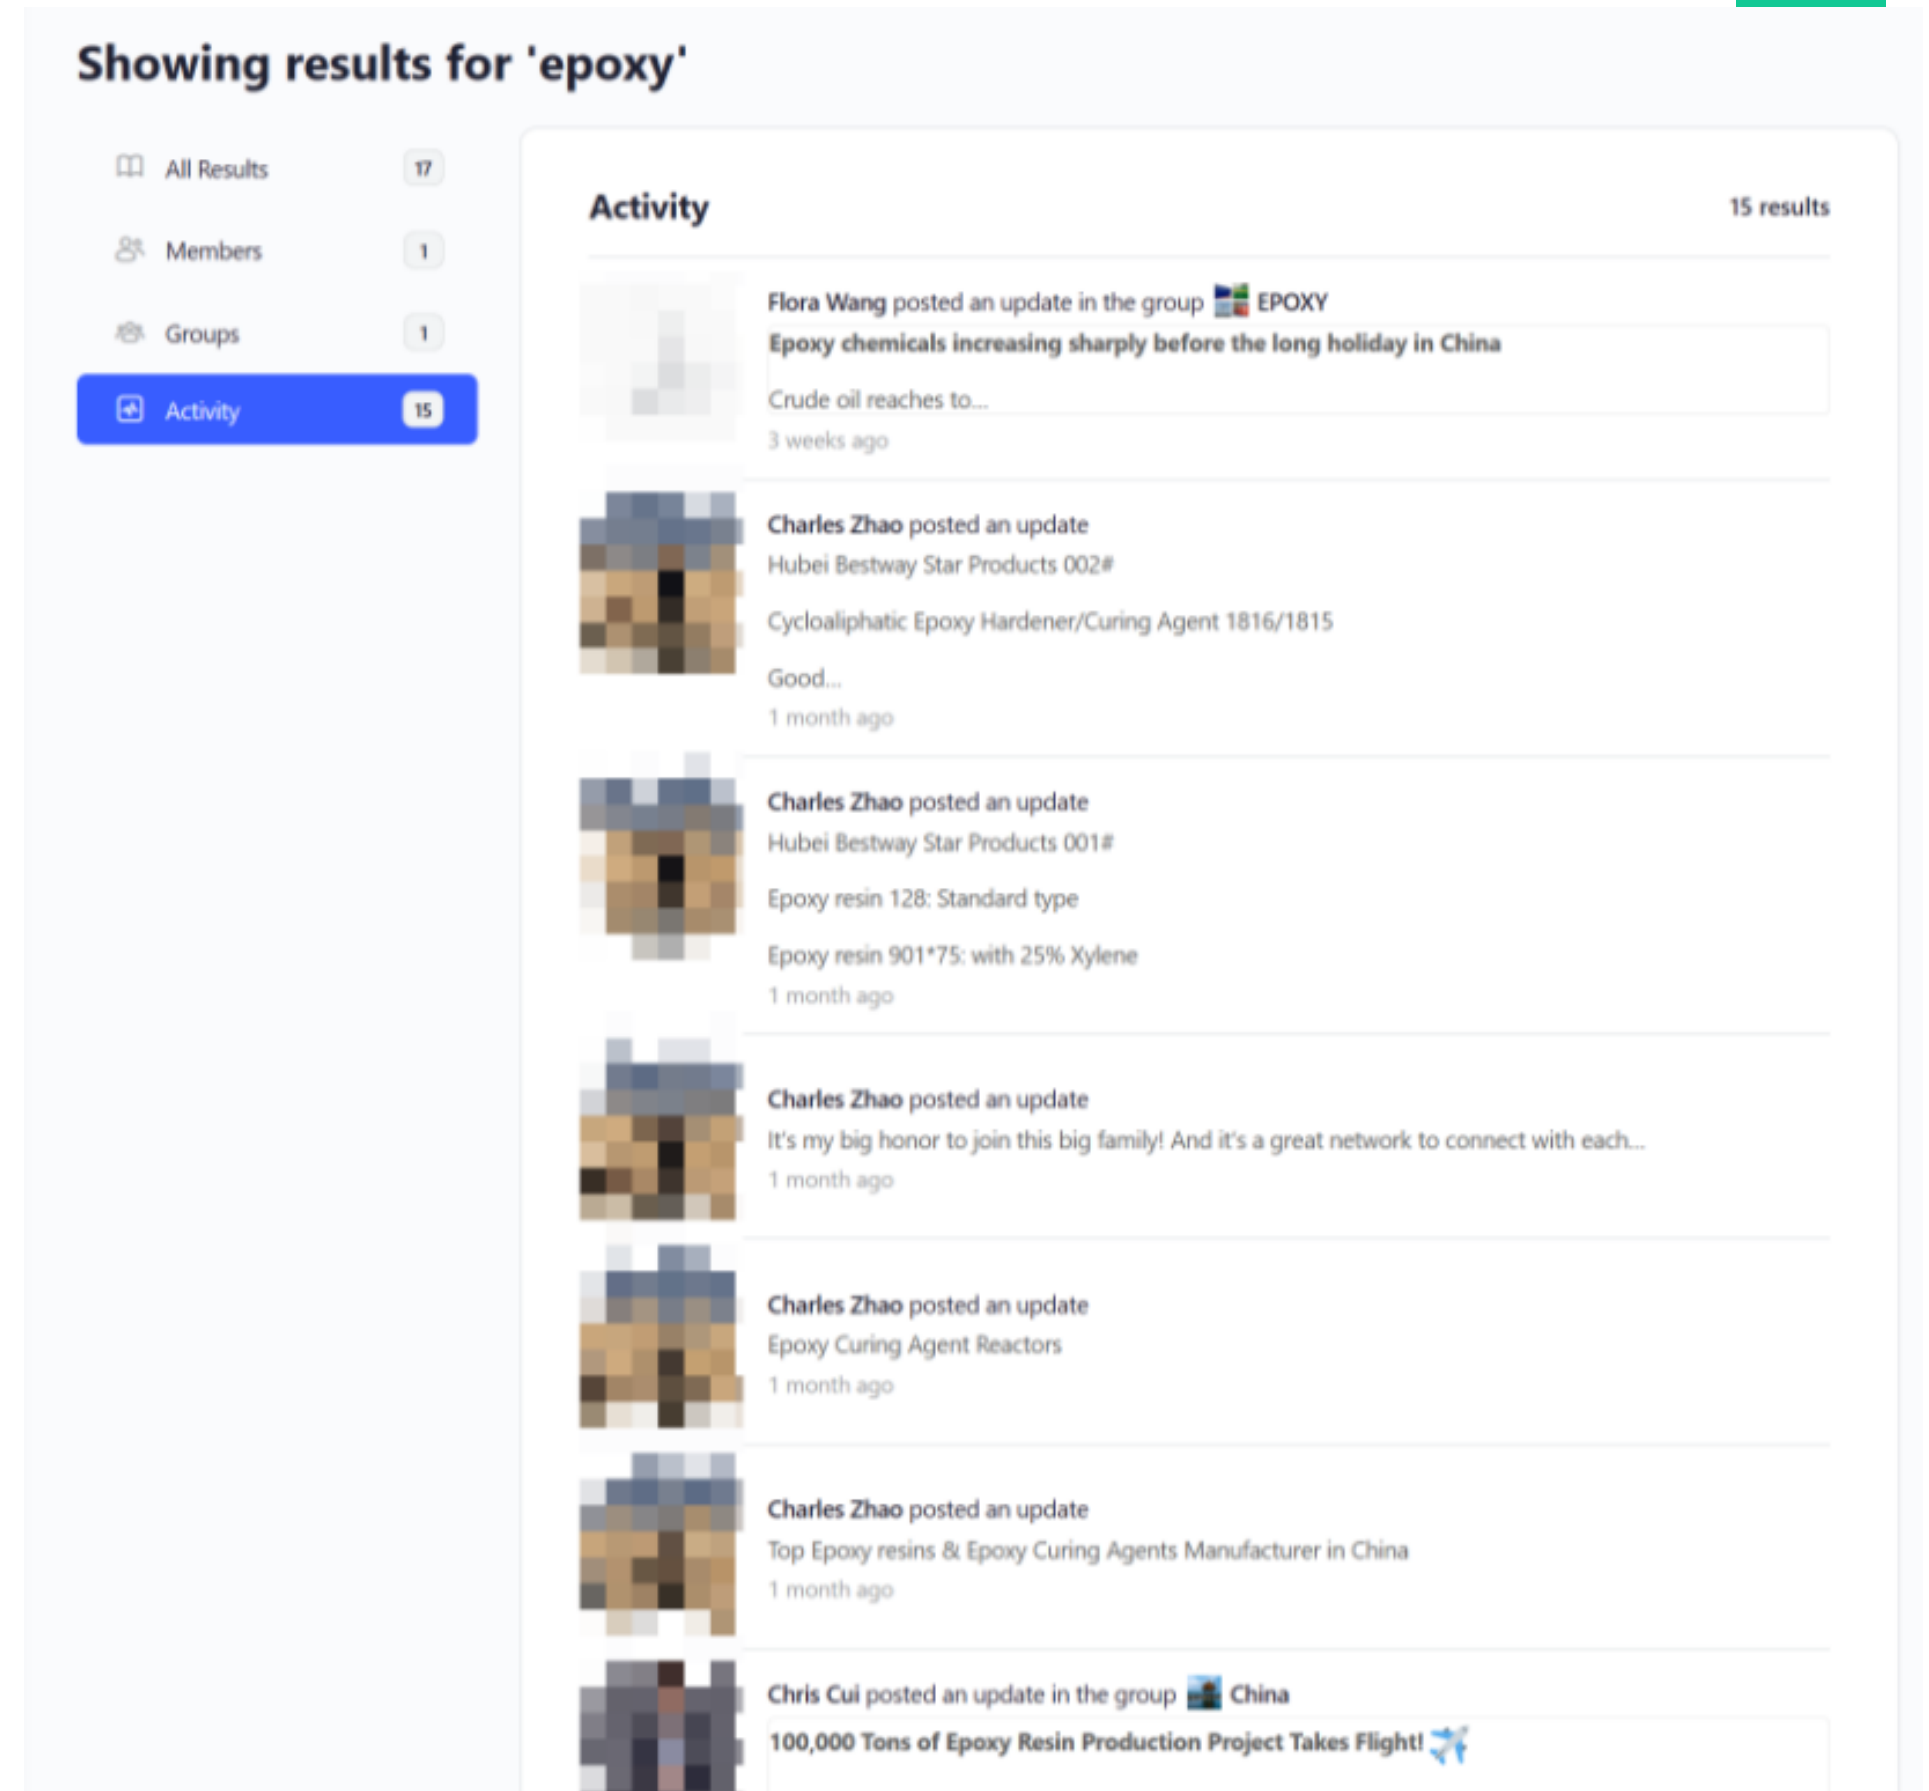

As a dedicated B2B community, our core mission is to establish and nurture enduring business relationships between European and Asian producers and consumers. Unlike traders or buyers/sellers/manufacturers, our role is to provide a comprehensive platform that fosters collaboration and knowledge exchange.

# Where to find 'Search Function'?

# Search for posts
